THE REAL ROOM.

The Gulf, Colorado and Santa Fe Pointed Directly for Las Vegas.

And Building as Fast as Men and Money Can Do It.

Mr. Geo. H. Sweet, editor of the Galveston Commercial, and representing the Galveston, Colorado & Santa Fe railroad, has been in the city since Monday, taking the altitude, latitude and bearings of Las Vegas in reference to its commercial and strategic advantages. He took in the Springs yesterday, returned to town, whiffed the pure mountain air, enjoyed the beauty of the climate and scenery, and dropped down into the GAZETTE sanctum and unfolded to us his maps first, and then his plans, projects and speculations, in which is combined so much of our immediate and future prosperity as a commercial metropolis. Mr. Sweet is a gentleman of fine presence, courteous manners and excellent understanding. After introduction he proceeded at once to business and first drew from his pocket a map of that imperial lone star, the State of Texas, showing the projected route of the favorite child of the enterprising gulf city of Galveston, the Gulf, Colorado & Santa Fe Railroad. The main line of this road as laid down on the map comes directly to Las Vegas, is carried across the mountains to Santa Fe and is projected thence to the northwest indefinitely. This road is of the standard gauge and is already built from Galveston northwest to Belton a distance of 220 miles. At Temple there is a branch runs to the northeast to Fort Worth. This branch is already completed 130 miles and will be finished to Fort Worth by the middle of November. A branch is also in construction from Cleburne to Wetherford and still another branch is now being located in a northwesterly direction running up into the Wichita country. The main line running on an air line from Belton to Las Vegas is now being located by the engineers of the road. As soon as the branch to Worth is completed the whole working force will be put on the main line and the road will be pushed on as rapidly as men and money can do it. The projected line comes northwesterly across the Staked Plains near to Fort Bascom and directly to this city. Mr. Sweet says that "our object is to tap here not only the business of the vast country tributary to the Atchafalaya, Topeka & Santa Fe Railroad but likewise the great system of Colorado railroads. Thus at Las Vegas, which is only a thousand miles in round numbers from Galveston, we bring all Colorado and New Mexico to within easy reach of the seaboard. That will make Galveston a great commercial city and will be equally beneficial to the Rocky Mountain country. But," says Mr. Sweet, "we do not propose to stop here. We shall take Santa Fe in our route and build on to the northwest, tapping the San Juan country and striking the railroads in Utah and thence onward to the Pacific. Galveston proposes to make all this country tributary by building a railroad to it and through it. It is an air line to the seaboard and will have all the railroads of the Rocky Mountains as feeders." Mr. Sweet is convinced that the harbor at Galveston can be rendered ample for such a commerce. Already by the jetty system the water on the inner bar has been increased from eleven to twenty feet and Colonel S. M. Mansfield the Government engineer guarantees that when the works are completed there will be thirty feet of water on the inner bar.

Mr. Sweet is delighted with the climate, the situation of Las Vegas and the palpable evidences of the resources of the country in the prosperity and enterprise of the people. He will get all the information in relation to New Mexico that he can while here in order to make a proper report to the company.

The Albuquerque Fair.

The premium list for the Albuquerque fair has at last made its appearance. It is a neatly printed and bound pamphlet, and contains the full list of all the premiums offered. Following are a few of the most important premiums.

Best collection of specimen ores from any one mining district in New Mexico, first premium, \$100; second premium, \$50.

Best collection of specimen ores from the Territory at large, first premium, \$100.

Best collection of specimen ores from any one mine in New Mexico, first premium, \$50.

The highest premium offered for cattle is \$25 for the best bull and \$25 for the best cow.

The highest premium offered for the best stallion is \$50.

The following are the premiums offered for the best grades of sheep:

Best buck two years old and over silver medal.

Best buck one year old silver medal.

Best three ewes two years old and over silver medal.

Best three ewes one year old silver medal.

Best pen three lambs silver medal.

There seems to be no distinction

made between Merino sheep and the long wool sheep as the premiums in each case is a silver medal. It is not stated whether there is to be any difference in the value of the medals.

A silver medal is offered for the best grade of hogs.

A copper medal for the best grade of poultry.

The best collection of all kinds of fruits gets \$25.

The best collection of grapes of any variety gets \$25.

The best collection of vegetables gets a \$25 premium.

The best twenty pounds of butter gets a diploma.

The best bread and crackers made in the Territory will be rewarded in a like manner.

The best display of Mexican jewelry gets \$25.

The best display of New Mexican birds, mounted, gets \$25.

The best domestic manufactures will receive a diploma.

The best exhibition of paintings, drawings and engravings will be rewarded with medals and diplomas.

Chas. Wheelock, of this city, will be the superintendent of the fine art department.

M. T. Thomas, secretary of the New Mexico exposition, is in the city in the interest of the exposition to be held at Albuquerque the first week of October. All those having articles they desire exhibited at the fair will do well to see him. As this is the first exposition ever held in the Territory it is hoped the people will take a just pride in making it a success.

Brutal Murder.

Friday last Tom Duffy, generally known as Pat, shot and killed Tommy Bishop at Wm. Gillemann's store at Liberty. The murder appears to have been largely unprovoked. Young Bishop was clerking in Gillemann's store. Duffy came in and was dicker for some goods. He finally told Bishop that Gillemann had given orders that he should ask Duffy more for goods than anybody else. Bishop told him he was a liar and went to his desk and got his pistol and brought it down on Duffy. This had the effect of bringing on a compromise in the wordy war and Bishop put up his pistol again. Duffy afterwards went into a back room and got a pistol belonging to a man named Pratt. He came in and while Bishop was marking some goods walked up to the latter, drew his pistol and asked Bishop if he had intended to kill him. The latter said he had not, but nevertheless Duffy fired and shot him through the head killing him instantly. Duffy remained in the vicinity several hours, but finally rode away. A warrant was got out and a party went after him and arrested him about twenty miles from Liberty. He was brought to town yesterday by Robert Bassett, Stephen Arnold and Tobe Plattner and turned over to the Sheriff.

Tommy Bishop was a young man of peaceable disposition. He worked for Mr. Cosgrove last winter driving buckboard and was highly spoken of by all who knew him. He has a father and mother residing in Salina, Kansas.

Mattress Factory.

A few months ago Mr. A. R. Arey commenced in a quiet way to manufacture steel wire mattresses. His success has been marked and he now has all the work he can possibly do. His wares are of the best quality and much cheaper than the mattresses brought here from the East. The trade is fast extending to the southern country, and ere long he will have to make additional arrangements in order to be able to supply the constantly increasing demand. In addition to this industry he makes and fits carpets, at which business several hands are constantly kept busy. Mr. Arey is backed by all the capital he needs, and when he thinks the demand for such wares will justify him, he intends to build a large establishment and put in the necessary machinery to supply the southwest.

Mendenhall, Hunter & Co. just had vehicles enough to carry the exorbitant druggists to the Springs at one trip. This shows pretty well, as there were one hundred and thirty of them.

The Race.

The foot race, which has been a subject of comment for the past week among our sporting men, was the cause of a considerable gathering yesterday near the ball grounds where the contest occurred. About 3 o'clock in the afternoon the crowd massed and the contestants stripped for the trial of speed. As both men were strangers but little money changed hands on the results. Cozad, the white man seemed to be the favorite from the start, and the colored citizen had few backers. Only a few moments were consumed in starting, about which there was some jockeying, when the athletes got off well together. Cozad easily won the race by about fifteen feet, and was exultantly cheered by his few backers, who had scant hopes of his success. The losers are hardly satisfied with letting a stranger walk away with their money, and Vegas may yet show up a stepper who will dampen his ardor.

Delmonico Restaurant.

Mr. J. J. Gainey has fitted up one of the finest restaurants in the city. It is situated on Grand avenue, south of Mendenhall, Hunter & Co.'s East side livery stable. Everything is neatly and newly finished. All the rooms are furnished with gas. The floors are carpeted and the windows handsomely curtained. A wine room has been provided, where all kinds of the choicest wines and cigars can be obtained. Albert Davis has been constituted head waiter and chief of the wine room. This is a first-class place, and just such a one as Las Vegas has long needed.

Brick Block.

Dr. Knauer is making arrangements to build a new two-story brick block on the plaza. The designs are now being perfected by Architect Wheelock. This is another evidence that Las Vegas is to be the metropolis of New Mexico. More and better buildings are being constructed here than in any other city in the Territory.

PERSONAL.

Frank Samples is over from Santa Fe. J. M. Perea and family are up from Bernalillo.

Col. Fred. Walsen came down on yesterday's train.

M. T. Thomas, of Albuquerque, is in town on business.

R. L. McConnell, of Kansas City, is a late arrival in town.

Dr. R. H. Longwill, of Santa Fe, is in the city on business.

During the small hours of yesterday morning somebody carried off the stove that usually sets before Houghton's store on the plaza as a sample and hid it in the park. When found the next morning all the loose pieces belonging to it had been carried off. It is hardly supposed that the matter was intended as a joke as in that case there would have been no object in destroying it. The thief likely intended to carry the stove away bodily but found it rather too bulky and concluded to hide what could not be easily carried and come back reinforced and obtain the rest. Those fellows should be looked after.

GAZETTE CLEANING.

The Street Car Company has concluded to build a bridge.

Mills & Hadley wrote \$62,000 in accident policies on Monday and \$115,000 yesterday. A pretty good day's work.

Officer Franklin yesterday received orders from headquarters to take off all the train guards, seven in number.

Mendenhall, Hunter & Co. are building a dwelling house on Lincoln avenue. It will be occupied by Mr. Hunter when it is finished.

We call attention to the advertisement in another column of Architect Wheelock, for bids for the erection of several brick buildings for J. Rosenwald & Co.

The firm of Marwede, Brumley & Co. have obtained the agency for the Aetna Powder Co. These gentlemen intend to carry a large stock, and will be able to fill large orders from all parts of the Territory.

F. W. Fleck gave a pleasant little party to a number of his German friends Monday evening. Mr. Fleck is of a social nature, and believes in enjoying the sweets of life as he goes along.

Mr. J. L. Leavitt returned yesterday from a week's travels in Mora County. He is well pleased with the appearance of that county, and thinks its grazing facilities cannot be surpassed in any portion of the Territory. He obtained a fine copper mine, while there, that he considers very good.
